Tribal Transit:
Demographic Needs
Indicators, Funding,
and Livability

eLearning Training
Modules

Tribal Transit - Demographic Needs Indicators, Funding, and Livability

Objective 1

Determine indicators to understand transportation and mobility needs of tribal communities.

Objective 2

Analyze transit operations and funding data; review the state of public transit services; identify the gaps in services and funding needs.

Objective 3

Conduct case studies to understand nexus of transit towards livability and quality of life!

Common Barriers to Training

TIME

ACCESS

eLearning Tribal Training Modules

- Created using Articulate 360 software
- Accessed free, online via internet connection
- Viewed as an interactive PowerPoint presentation with audio narration
- Periodic “Check Your Learning” short quizzes
- Optional final quiz to verify completion

eLearning Tribal Training Modules

- NTICC Focus Group Questions
 - Relevant tribal transit topics?
 - Best method for distribution?
- Interviews with Tribal Providers
 - Pre-interview questionnaire
 - How training is conducted with staff
 - Discussed areas of training challenges

Bad River Transit System – Odanah, WI (10 staff)

Namekagon Transit – Hayward, WI (30 staff)
